Gold King Mine Background FINAL.docx

Dana and Josh,

This fact sheet look pretty good. Was it prepared by someone in Region 8? I am attaching my minor redline/stirkeout and comments. Thanks and have a great day.

We need someone to take a look at this. Apparently Area Command doesn't have a mining expert on hand today. Neither do we, physically. We really want to get this fact on the website today.

Lee:

I'm still waiting on a technical expert to look at this, but can you review and flag if problematic?

This fact sheet was prepared by R9 using available information on the website. R8 program (Stavnes/Peronard) has reviewed it for accuracy.
